Stu,

I will be going to Charter Oaks on Wednesday, February 14th to review their Lead and Copper sampling plan. If Jenny would like to do additional sampling, she can ask the city clerk to order her more bottle sets or she can order them from Mangold herself. I told her that on the phone last week I believe.

Thanks!

Carrie

Carrie,

Just got off the phone with Jenny. I visited with her regarding lead issues in and around the home.

We did talk a bit about the city water issue. I wanted to see if the IDNR will be doing any follow-up with the city regarding their sampling protocol for lead and copper. Are they sampling different homes each time they complete their sampling? Jenny was also interested in determining the lead levels in their water after the water was run for some time. Is this a possibility for same additional sampling?

Thanks for your time.

Stu,

Here are the most recent water samples taken by Jenny Castillo.

Thanks,

Carrie

Jenny,

Here are the most recent lead samples. I am currently waiting to hear back from the Iowa Department of Public Health (Stu Schmitz). I will be calling the City of Defiance shortly.

Thank you,

Carrie
